

Extra preventive care services for women

What is preventive care?

Preventive care includes tests, shots (vaccines), screenings and other care to help you avoid illness before you have symptoms of a problem.

Your Marketplace plan pays the full cost of certain preventive care services from a doctor or other providers in your plan's network. This means you don't have to pay a copay or co-insurance or meet your deductible.

You may not need all of these services. Some services are only free to people at high risk, such as osteoporosis screening for women over 60.

Preventive care services covered by your Marketplace plan

Ask your doctor which services you should get based on your age and family history:

Regular visits

- Yearly well-woman visit

Care for a healthy pregnancy

- Anemia screening
- Breastfeeding support
